THE FUEL OF THE FUTURE.

Gas Stoves for Summer Use

Are rapidly displacing Wood, Coal and Gasoline for cooking purposes. No bringing of coal nor wood, no ashes, no dust; always ready and **PERFECTLY SAFE**; meals can be cooked in shorter time, and with less annoyance from heat, than by any other method. Where used they have given perfect satisfaction; cost no greater than that of an ordinary wood stove. Ladies who have used them declare that they are indispensable, especially in summer, and they **COULD NOT KEEP HOUSE WITHOUT ONE**.

The Gas Company propose to make

NET PRICE OF \$1.50 PER THOUSAND FEET,

From May 1 to Oct. 1, to ALL PERSONS USING FOR COOKING PURPOSES. Read the following opinions from well-known ladies who have used Gas Stoves in Decatur:

R. J. STRATTON,
Supt. of Decatur Gaslight and Coke Co.

R. J. STRATTON, Supt. - Dear Sir: I am using a No. 7 Gas Range, and it is with pleasure that I bear witness to its many good qualities. For utility, cleanliness, comfort and economy, it is all I could desire; anything can be cooked on it that can be cooked on any stove, with, in my opinion, less expense, and certainly with less trouble and more comfort. I cheerfully recommend it. Yours truly, MRS. HENRY ELWOOD.

Mrs. R. J. STRATTON, Supt. - Dear Sir: I want to say to you that the gas stove you furnished to me last summer is much more satisfactory than I had hoped for. I can do every kind of cooking with it, and the regularity of the heat gives better results than any other stove. I should not desire to keep house without it. Yours truly, MRS. FRANK H. HALL.

R. J. STRATTON, Supt. - Dear Sir: I have in use one of your Gas Cooking Ranges and as a matter of convenience and comfort it is unsurpassed, and is all you claim for it—gas costing about the same as oil or coal. Yours respectfully, MRS. WM. PLUCK.

Best Cough Cure.

For all diseases of the Throat and Lungs, no remedy is so safe, speedy, and certain as **Ayer's Cherry Pectoral**, An indispensable family medicine.

"I find Ayer's Cherry Pectoral an invaluable remedy for colds, coughs, and other ailments of the throat and lungs. I have used it for many years and have never been troubled with any disease of the lungs or throat." — James Miller, Caraway, N. C.

"I have used Ayer's Cherry Pectoral for bronchitis and for

While eating lunch the other day with a prominent broker, I chanced to ask him about the stock market. Before the question was out of my mouth, his hand went under the table like a flash and three cards were rapidly given my inquiry.

"Lucky," said I, distrustfully eying him.

"Lucky," he answered, slipping his coffee.

"I rapped for luck, as every sensible man should when the market is referred to in a restaurant."

Of course a circle of Spiritualists hundreds of whom are engaged in the propagation of various forms of superstition.

We consider ourselves at the

meridian of civilization, but, as Emerson says, we are only at the cock crowing and the morning star. Hundreds of people consult swallows who tell themselves astrologers. A large proportion of the population, however, are superstitious.

It has become so popular of late with a number of houses, particularly at this time of the year, to grossly mis-state former prices, that we refrain from doing so, not wishing to perpetuate a humbug, nor try to infringe on good common sense.

The mountain has been in labor for two or three months, up a back staircase, and what a ridiculous mouse it has brought forth!

Ex-PRESIDENT CLEVELAND and his party, all of whom were "out" before their titles reached Havasu on Saturday morning, and received an enthusiastic welcome.

PRESIDENT HARRISON's appointments may not suit everybody exactly, but there is one feature about them that commends them to the country—there is not a single unrepresentative and unrepresentative rebel among them, and that is a long step forward.

A GENTLEMAN who read yesterday morning this ticket "recommended" by the Democrats of the cockpit, exclaimed, "and this is what the Democrats have in store for us at their midnight conference all winter?" Why, any two followers of ordinary sense could have done better after a fifteen minute conference on a cockpitote."

CORPORAL TANNER, of Brooklyn, N. Y., the man who had both legs shot off in the late war, was on Saturday nominated for Commissioner of Pensions. The appointment is looked upon as a proper recognition of the wounded soldier who earned a nickel, instead of the man who were shoulder straps.

The rooms of the late Justice Matthews will be taken to Cincinnati for interment, Chief Justice Fuller and Justices Gray, Blatchford and Lamar accompanying them. The party in charge of the remains will start from Washington this afternoon and the funeral will take place to-morrow morning.

LAMSON got his first Federal plum on Saturday. Tom Needles, one of the most popular men of the party in the state, was nominated for Marshal of the United States Court for the Indian Territory—a court provided for in recent legislation. Mr. Needles a man who has had sufficient experience in public affairs to render him a very valuable man in setting the machinery of the new court in operation.

The ticket that Democrats are "recommended" to support was not made up publicly, no political parties generally select their tickets, nor were any meetings held at which the rank and file of the party could meet together and have a voice in the preliminaries. The whole thing was cooked up at the midnight secret conference which the bosses have been holding all winter. The followers who are expected to supply the necessary votes were not invited to participate in the selection of this ticket in any way. The bosses thought that was not necessary, they could attend to all such little formalities as selecting candidates. The other fellows might be depended on to vote for whoever the leaders dictated. This is Democratic politics in Decatur.

CARTER HARRISON has been smoked out at last, as those who know him best always expected he would be before the municipal election in Chicago went clear by. He has agreed to make "just one speech" in support of the Democratic ticket no more. He says he was not properly treated by the Democratic party after his defeat for the governorship in 1884 that he should have been nominated for United States Senator, and that he could have been elected. He alleges that the very men who refused to give him their votes at that time in the Democratic caucus had been rewarded by a Democratic President with all of which they hold to this day. He confesses that he is a greater man than H. C. Clay ever was, but he is "out of politics" and deserves to stay out! Everybody is expected to regret this great calamity.

An Arkansas legislator thus noted has a strong hand for timing: "I will not say that the one man in an assemblage as the angels are, for I have never seen an angel and know not how I am mortal they are, but I will say that if angels look like the lovely maidens whose names I put in nomination, the angels are beautiful indeed." And yet who was defeated.

Fourteen English paper-makers, representing \$10,000,000, have formed a syndicate to restrict production and raise prices. The English paper mills are not numerous and for years their owners have been protected by a very exclusive organization, which was partially a trust. Some of the smaller men have recently been entering into it, and it is to force these into subjection that the syndicate has been formed.

A STATEMENT comes from New York to the effect that Jay Gould says that he is "out of politics." It is really said, so, will be to watch the whole field of politics for some time to come to understand what part of it he is crowning. When an announcement is made by him that he is "out of Wall street," the next we hear of Wall street is that it has been turned upside down by some of his tricky operations.

FROM WASHINGTON.

An Important Decision—Will Give the Old Soldiers an Inning.

The Naval Gun-Plant—The Nomination of Whitelaw Reid Confirmed—Ward for Washington.

Governor Ross of New Mexico—John C. New and Fred Grant—The Fight for the General Land-Office.

An Important Inter-State Commerce Decision.

WASHINGTON, March 25.—The Inter-State Commerce Commission Saturday, in an opinion by Commissioner F. D. Pyle, decided the case of the Imperial Tobacco Company and others against the Pittsburgh & Lake Erie Railroad Company and another. The points are as follows: The rate on transportation of coal to points on Lake Erie have been grouped from April 1, 1887, for a considerable district in Western Pennsylvania, which of Pittsburgh is the center. The district has a radius of forty miles around Pittsburgh. The group rate on coal is ninety cents a ton from all the mines and by all the lines of railroad that carry to the lake. The cost from the Pittsburgh district is \$1.10 a ton. The coal rate is also grouped at eighty-five cents a ton. The complainants' mines are near the outer and others more distant, varying from a few miles to forty-three. On complaint is that, on the facts of this case, which involves only the question of discrimination between the complainants' mines and the more distant mines in respect to lake shipments. It does not appear that the complainants are subjected to undue privilege, or that the more distant mines are given a reasonable preference by the uniform rate.

Will Give the Old Soldiers an Inning.

WASHINGTON, March 25.—Corporal Tanner, the newly appointed Commissioner of Pensions, when asked what policy he would pursue in dealing with the affairs of the bureau, said: "I can best answer that question by quoting one of General Harrison's remarks made during the last campaign. He said: 'Gentlemen, it is no time to use the apothecary's scales when you come to weigh the services of the men who saved the Nation.' I assure you that is a really good motto for all the people in the Civil War to adopt. If I am asked to define my ideas on this question, I should undeniably reply: A pension for every surviving soldier who needs one; and no soldier's widow, father or mother should be in want. I am going to take hold of this mighty machine, and I am not loath enough to think I have nothing to fear in knocking out soldiers' claims because of a technical shortcoming."

The Funeral of Associate-Judge Matthews.

WASHINGTON, March 24.—At the meeting of the Supreme Court yesterday no steps were made for sending a despatch to Glendale with the remains of Justice Matthews. It is understood, however, that Chief Justice Fuller and Associate-Judge Gray, Blatchford and Lamar will accompany the remains. Major Wright, the marshal of the Supreme Court, or one of his assistants, will also go with the funeral party.

The Lyndeau Court-Martial.

WASHINGTON, March 25.—The court-martial for the trial of Major Garrett J. Lyndeau, Corps of Engineers, U. S. A., charged with neglect of duty in the construction of the aqueduct tunnel, will meet to-day at the War Department.

Major-General George Crook will be president. Hon. George S. Boutwell will appear as counsel for Major Lyndeau.

Lieutenant-Commander Emery.

WASHINGTON, March 25.—It is understood that Lieutenant-Commander W. H. Emery, Jr., of the navy, at present in this city, on leave of absence from his ship, the *Thoth*, at San Francisco, will not return, but will shortly be detached.

New Recruits Ordered.

WASHINGTON, March 25.—The Superintendent of the Recruiting service has ordered thirty recruits each to the Fourth Infantry, Department of the Columbia; Twenty-first Infantry, Department of the Plate, and to the Twenty-second Infantry, Department of Dakota.

The New Commissioner of Patents.

WASHINGTON, March 25.—Charles K. Mitchell, the new Commissioner of Patents, arrived Washington Saturday night. He will take charge of the office early in the present week.

Arrested for Passing Counterfeit Coins.

WASHINGTON, March 25.—The secret service arrested David Lambert, of Hoboken, N. J., for passing counterfeit coin in that city.

Superintendent Bell Sick.

WASHINGTON, March 24.—Superintendent Bell of the Railway Mail Service is confined to his room by sickness.

VIETNAM CONGRESS.

(Special Session.)

VIETNAM.

WASHINGTON, March 25.—In the Senate to-day Mr. Mitchell offered a resolution (which went over) authorizing the committee on mines and mining to continue the inquiry into the cause of delay in considering contested maps in the mineral division of the General Land Office. The Senate then went into secret session.

Mayor Grant and the Friendly Sons of St. Patrick.

NEW YORK, March 25.—It has just leaked out that there is a great deal of feeling among the members of the Friendly Sons of St. Patrick over the action of Mayor Grant at the banquet of that society held at Delmonico's on the 16th inst. The mayor was expected to respond to the toast "The City of New York," but he excused himself before the banquet was over, and declared that day he had private business to attend to. The members of the society assert that the mayor slighted them by his conduct, and declare that he left the banquet to attend another Irish society. They are very much incensed, and it is expected that the matter will be discussed at the next meeting of the society, and some action taken.

Released from Prison to Die of Consumption.

OTTAWA, Ont., March 25.—John Donohoe, better known along the Niagara frontier as "Clutch" Donohoe, a notorious "fence," who has been serving out a sentence of six years in the Kingston prison, was released yesterday on representations that he is dying of consumption. Donohoe kept the Queen's Hotel of Erie, and was implicated in numerous robberies of the American side, acting as receiver of stolen goods.

Failed by Falling from a Window.

BRIDGEPORT, Conn., March 25.—Little Pauline, 11, died three years, fell out of a third-story window of her home at No. 1014 West Mulberry street, and died an hour later. The little one struck the pavement head foremost. Before she died her head had swollen to three times its natural size.
